The Number One HTTP Server On The Internet

The Apache HTTP Server Project is an effort to develop and maintain an open-source HTTP server for modern operating systems including UNIX and Windows. The goal of this project is to provide a secure, efficient and extensible server that provides HTTP services in sync with the current HTTP standards.

The Apache HTTP Server ("httpd") was launched in 1995 and it has been the most popular web server on the Internet since April 1996. It has celebrated its 25th birthday as a project in February 2020.

The Apache HTTP Server is a project of [The Apache Software Foundation](#).

Apache httpd 2.4.62 Released

2024-07-17

The Apache Software Foundation and the Apache HTTP Server Project are pleased to [announce](#) the release of version 2.4.62 of the Apache HTTP Server ("httpd").

This latest release from the 2.4.x stable branch represents the best available version of Apache HTTP Server.

Apache HTTP Server version 2.4.43 or newer is required in order to operate a TLS 1.3 web server with OpenSSL 1.1.1.

Apache httpd 2.2 End-of-Life

2018-01-01

As previously announced, the Apache HTTP Server Project has discontinued all development and patch review of the 2.2.x series of releases.

The Apache HTTP Server Project had long committed to provide maintenance releases of the 2.2.x flavor through June of 2017. The final release 2.2.34 was published in July 2017, and no further evaluation of bug reports or security risks will be considered or published for 2.2.x releases.

Want to try out the Apache HTTP Server?

Great! We have updated our [download page](#) in an effort to better utilize our mirrors. We hope that by making it easier to use our mirrors, we will be able to provide a better download experience.

Please ensure that you [verify](#) your downloads using PGP or MD5 signatures.

Want to contribute to the Apache HTTP Server?

Awesome! Have a look at our current 'Help Wanted' listings then:

Tasks the Apache HTTP Server Project would like help with:			
Title	Languages	Difficulty	Created
1 Rewrite mod_lidap cache handling code	c	Intermediate	5/28/2018, 10:53:20 PM
2 Learn and work on httpd's internals	c	Advanced	1/2/2018, 10:49:40 PM
3 Websocket documentation	english,xml,lua,c	Intermediate	2/19/2016, 11:01:35 PM
4 Improve the Request Processing guide	xml,html,c	Advanced	2/14/2016, 4:46:11 PM
5 Traffic shaping with mod_lua	lua,c	Advanced	2/14/2016, 2:39:50 PM
6 Make a better guide on request hooks	xml,html,c	Advanced	2/8/2016, 3:16:07 PM
7 Write a better cache guide	xml,html	Expert	2/7/2016, 3:00:59 AM
